Which filled my heart with admiration;

When I was sunk in degradation, Before I realized salvation.

I strolled, in search of relaxation, Into an Army congregation.

The captain gave an exhortation, With earnestness and animation,

Responding to the invitation Which closed her heaven-born oration,

I knelt with the determination To undergo a transformation; And with unfeigned supplication, begged the Spirit's operation For my poor soul's regeneration.

The process was of short duration, soon arose with exultation. Rejoicing in my liberation From doubts and fears and condemnation, And from the devil's domination (Devoutly wished for consummation),

My soul was filled with rapt scusation When I received the revelation-

The sweet, Divine communication That Christ for me made reparation. The Hallclujah exclamation Gave token of heart renovation. I read the CRY with delectation, And every Army publication.

I now conclude this short narration

By urging all in every station, To seek God's reconciliation While Jesus still makes mediation:

Come, without further hesitation, No longer brook prograstination;

For all the ills in God's creation

The perfect cure is God's Salvation !

Try it!
